

Every school receives School LAND Trust Program funding through a student enrollment based funding formula described in the law. The annual interest and dividend income from investment of the permanent State School Fund is where the annual allocation comes from. The funds flow through the school district, but districts do not withhold any funds. Charter school funds are sent to directly to the school.

You may view the amount schools have received through 2014-2015 by choosing a district and school. This website is currently under reconstruction so the 2015-2016 distribution is not viewable yet. Schools are required to post that information on the school website. You may find it by visiting the school website or calling the principal. Principal and district information is found on this website under CONTACT.
